PROFILE

Dynamic FullStack Developer with 4 years of comprehensive experience in creating and optimizing web applications, significantly enhancing functionality and user experience. Proficient in both front-end and back-end technologies, driving projects that utilize frameworks such as ReactJs, NextJs, and NestJS. Expertise in transitioning platforms and implementing responsive design principles ensures high performance and scalability of applications. Committed to continuous learning and adapting to emerging technologies

EMPLOYMENT HISTORY

Mar 2025 — Present

FullStack Developer, Berrini Automotores

Firmat, Santa Fe, Argentina

- Developed and optimized web applications using ReactJs, NextJs, and NestJS.
- Implemented responsive design principles to enhance user experience across devices.
- Managed databases including PostgreSQL, MySQL, and MongoDB to ensure data integrity and performance.
- Collaborated with cross-functional teams to define project requirements and deliver solutions on time.
- Engaged in continuous learning to stay updated with emerging technologies and industry trends.

May 2024 — Present

Full Stack Developer, Alquileres Temporales

Rosario, Santa Fe, Argentina

- Migrated legacy website from non-performant WordPress to NextJs, achieving optimal Lighthouse performance scores.
- Enhanced website efficiency through advanced caching strategies, optimization techniques, and developing a high-performance UI.
- Created reusable components, optimizing webpage performance and improving load times and user experience across multiple platforms.
- Collaborated with cross-functional teams to integrate APIs, ensuring seamless data flow and user interaction.
- Conducted performance audits and implemented best practices to maintain site reliability and scalability.

May 2025 — Jun 2025

FullStack Developer, CLEATUS AI

Remote

- Optimized project loading times by upgrading from NextJs 14 to NextJs 15, enhancing overall performance.
- Implemented microfrontends architecture to efficiently serve static assets for marketing websites.
- Achieved a significant improvement in Lighthouse performance scores, raising ratings from near 40 to 90+ on static marketing pages.
- Collaborated with cross-functional teams to ensure seamless integration of front-end and back-end technologies.
- Contributed to continuous improvement processes, adopting best practices in code development and user experience design.

Jan 2025 — May 2025

Frontend Developer, Digital Pathology Lab

Remote

- Developed frontend applications utilizing ReactJs and NextJs to enhance user engagement.
- Implemented AI model communication for image analysis, optimizing processing time.
- Created an image editor for refining segmentator results, improving accuracy.
- Established authentication processes from scratch to ensure secure access.
- Collaborated with cross-functional teams to align project goals and deliverables.

- Delivered comprehensive tech support across the organization, troubleshooting hardware and software issues.
- Maintained and optimized IT equipment, ensuring peak operational performance.
- Collaborated with cross-functional teams to enhance user experience and streamline processes.
- Assisted in the implementation of new technologies, driving efficiency and productivity.
- Conducted training sessions for staff on software tools and best practices.

Jun 2023 — Jan 2024

Fullstack Developer, Skillful Dev

Remoto

- Developed full-stack applications using ReactJs for diverse clients.
- Enhanced back-end functionality by coding with NestJs, improving existing codebases.
- Collaborated with teams to implement MaterialUI for improved front-end design.
- Managed database solutions including PostgreSQL and MongoDB.
- Optimized user experience through responsive design and API integration.

Feb 2023 — Jun 2023

Trainee-Jr Frontend Developer, Skillful Dev

Rosario, Santa Fe,
Argentina

- Developed UIs using ReactJs and Material UI, enhancing user experience.
- Translated designs from Uizard.io to code, ensuring design fidelity.
- Integrated existing backend services with new frontends across multiple projects.
- Collaborated in agile teams to deliver features on time.
- Contributed to code reviews, improving code quality and team performance.

Mar 2021 — Dec 2022

Fullstack Web Developer, Freelance (Self employed)

Rosario, Santa Fe,
Argentina

- Developed and optimized web applications for clients, enhancing user experience and functionality.
